

# Aloe Vera Burn Gel

Get rapid relief and first aid treatment of minor burns, scalds and sunburn

The new Aloe Vera Burn Gel from Plum is a water based, burn gel as first aid treatment for minor burns, scalds, sunburns and radiation injured skin. Can be used by children and adults.

The burn gel formulation is a water soluble, transparent hydrogel, also containing aloe vera. The cooling and soothing effect offers first aid treatment and pain relief after excessive exposure to the sun or after heat exposure.

The product may also be used to treat radiation induced dermatitis, which may be considered a superficial burn. The use is limited to heat, sun and radiation damaged skin (first or superficial second degree burns only).

Suitable for a number of industries including occupational safety and first-aid.

## PLUM ALOE VERA BURN GEL

**Article no:** 5575  
**Content:** 50 ml  
**Packaging:** 24 x 50 ml

### INTENDED USE:

First aid treatment for

- Minor burns
- Scalds
- Sunburns
- Radiation injured skin

### PRODUCT CLAIMS:

- Rapid cooling and soothing effect
- Pain relief
- Speeds up the healing process by moisturizing

### DIRECTIONS:

- Apply the gel abundantly on the affected area immediately following a thermal injury.
- Apply from a close distance.

### PRECAUTIONS:

Do not use on deeper second degree burns or other types of burns such as chemical burns, phototoxic reactions, drug induced skin reaction or skin damages induced by electrical shock.

## YOUR BENEFITS:

- Comfortable and convenient packed burn gel
- Bag-on-valve technology for quick and continuous dispensing
- Quick and convenient solution when treatment is needed immediately
- The gel can be dispensed directly onto the affected area from any angle or position

Plum Aloe Vera Burn Gel is CE marked according to the Guidelines for Classification of Medical Device Directive (MDD 93/42/EEC).
