Multiple-position headband allows wearer to select position over-the-head, behind-the-head or under-the-chin
 Air Flow Control™ technology, delivering optimal attenuation across all frequencies, without increasing earcup size or weight
 Inner-ventilated headband minimizes pressure on the head, breathes easier in warm/humid climates
 Alternative to cap-mounted earmuffs - wear with hard hats, face shields, respirators and other PPE
 Non-deforming outer headband withstands rough treatment in the toughest workplaces
 Snap-in ear cushions make replacement quick and easy
