

# Tigmaster™

## A comfortable light duty welding glove

**Tigmaster™ from Polyco is a welding gauntlet fully compliant with EN12477 Standard for Type B welding.**

Consisting of sheepskin and heavy duty leather the Tigmaster™ has been specifically designed for Type B welding (Tig welding) and light mechanical handling. The glove area is made of high quality sheepskin which is extremely soft and comfortable, and a heavy duty leather cuff which provides extra protection to the forearm. Available in two lengths for when extra protection is required.
