Performance

The suit indicated in this informative note complies with the specifications of the European standards: EN 340/2003 for the general ergonomics and size requirements.

Limitation of use

The items in this informative note. DO NOT offer protection against the perforation of objects, furthermore they DO NOT offer protection against other risks not mentioned in this note such as those resulting from the use of chemical products, cold, electricity, heat and/or fire and particularly, all the risks belonging to category III as defined in the European 89/686/CEE.

Warning

Before uses verify that the items are clean and that there are no breaks, open seams or other defects that could compromise the safety features. The suit must always be used together with the helmet and gloves (see specific instructions for use) and with boots. The safety features indicated are guaranteed only if the garments are correctly worn, buckled up, and in perfect conditions. If the suit gets damaged during use immediately leave the area and replace the suit. Replace the visor if it is worn. The manufacturer cannot be held responsible for any damages or consequences resulting from improper use or tampering with the equipment.

Additional Information

User Information Sheet

HOW TO WEAR THE SUIT

Fix the helmet inside the hood with the press studs.

Open the zipper, open the leg by opening the Velcro strips, put the legs, put the boots and close the Velcro openings on the legs by matching the two ends of the Velcro strips, trying not to form big folds in the fabric. Slide arms in sleeves, and make sure the helmet is correctly positioned on head. Close the zipper and put on the supplied gloves. Position the cuffs of the suit over the gloves. Put the visor on the front opening of the hood and fix it by pressing gently on the Velcro strips on the sides.

Maintenance

Life Cycle

Hand wash at max 40°C. DO NOT use bleach. DO NOT tumble dry. DO NOT iron. DO NOT dry clean.

Storage Information

Keep equipment in the original packaging in a cool and dry place, not dusty, far from heat sources and far from direct light. Carefully keep the instructions below that appear on the label of the equipment for maintenance purposes.

Care Instructions

For washing, read carefully the indications mentioned in the "life cycle" paragraph.
