

TELESCOPE TRIPOD

The professional **TELESCOPIC TRIPOD** made of stainless steel is equipped with air damping. This means that the tripod retracts smoothly after loosening the wing screws, even if a spotlight container with two spotlights is mounted. This eliminates the risk of damage or even injury when the tripod retracts.

FEATURES

- Made of stainless steel – no rust ever again
- Safe and comfortable operation thanks to air damping
- Suitable for all common vehicle mounts
- Adjustable feet for level adjustment
- Incl. guy set
- Standard spigot according to DIN 14640 for mounting headlights, bridges etc.

TECHNICAL DATA

<i>General Data</i>	
Height	1.12 to 4.75 m
Max. payload:	25 kg
Adaption	DIN bolt
Material	Stainless steel
Special feature	Air damping
Dimension during transport (L x W x H)	1,145 x 200 x 200 mm
Item no.:	1410000329
